

Excellence in Education Award Nomination Form

The Excellence in Education Award recognizes exemplary teaching performances in classroom, clinical, laboratory and/or community settings. Candidates should exhibit the highest level of dedication to teaching AA students, but may also excel in professional advocacy by educating anesthesiologists, anesthesia groups and/or hospital personnel on the practice of CAAs in an effort to expand practice. Ideal candidates should have demonstrated global educational impacts on the AA community and have served the overall advancement of the profession. All nominees must be board certified Anesthesiologist Assistants and hold current AAAA membership in order to be considered for the award.

Candidate information

Name: _____

Place of employment: _____

Affiliated program (if applicable): _____

Nominator* information

Name: _____

Title: _____

Relationship to Candidate: _____

*Students — Please indicate your program and anticipated graduation date.

Program: _____ Graduation month/year: _____

Please give examples of how the candidate promotes the success of AA students including, but not limited to, the following activities:

- Strives to advance student performance with encouragement to excel
- Remains current on research and literature, and integrates findings into teaching and clinical practice
- Serves as a mentor by professional dedication in own practice

- Goes above and beyond responsibilities to be available to students for additional educational opportunities (e.g. staffs simulation lab outside of normal hours, allows students to work in the OR for specialty call shifts, looks for unique surgical cases and makes effort to get students into those rooms, etc.)
- Teaches with enthusiasm and respect for the students
- Attends professional state or national conferences regularly
- Staffs educational workshops for students and/or fellow CAAs
- Authors educational papers or literature reviews
- Promotes professional advancement by building relationships with state component anesthesiologists
- Provides educational information to anesthesia groups to expand practice of CAAs
